To Whom It May Concern:

We have received your request for discovery. At the City of Renton's request, ATS has sent you a document entitled "Notice of Infraction". Enclosed is another copy of that document. Please refer to that citation for instructions and information to view the factual evidence in this case.

IRLJ 3.1 does not provide for discovery beyond the information made available to you. There are no additional sworn officer statements, witnesses or other discoverable evidence. Equipment certifications, sign locations, and any other related documents are kept in the Renton Municipal Court and are available for viewing during regular court business hours. Thank you for your attention to this matter.

Sincerely,

City of Renton Prosecutor's Office
